

WM Codd

Cutting Edge Fabrication Solutions

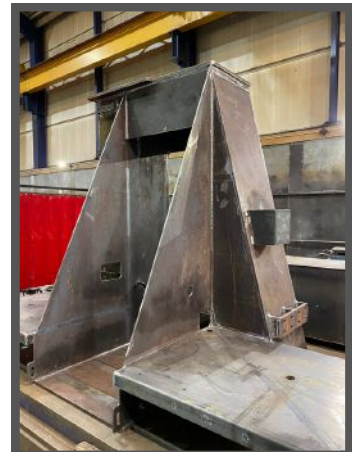

WM Codd is a leading provider of high-end steel fabrication services, delivering precision-engineered structures and installations for the offshore, oil, gas, and industrial sectors. With years of expertise, we pride ourselves on our ability to handle complex projects, delivering tailored solutions that meet the most stringent safety, quality, and performance standards.

Supplying Worldwide Since 1964

Your Trusted Partner in Steel Fabrication Solutions

WM Codd specializes in a wide range of high-quality steel fabrication services, delivering custom solutions for offshore, oil, gas, and industrial sectors. From portal buildings, access platforms, and walkways to machinery guarding, tanks, and ducting, we provide expert design, fabrication, and installation services. Our capabilities include both mild and stainless steel fabrication, with services available on-site or supplied to suit your project needs. Whether it's structural steelwork, pipe supports, or safety barriers, WM Codd ensures precision and durability in every project, meeting the highest industry standards. Contact us today for tailored, reliable steel solutions.
