

Advanced Heat Exchange Technology

Global Leaders in Heat Exchanger Design and Supply

For over 30 years, AMI Exchangers has been at the forefront of designing, manufacturing, and supplying high-quality heat exchangers. With a global presence, we are trusted by industries such as marine, industrial, rail, and power generation to deliver innovative and reliable heat exchange solutions.

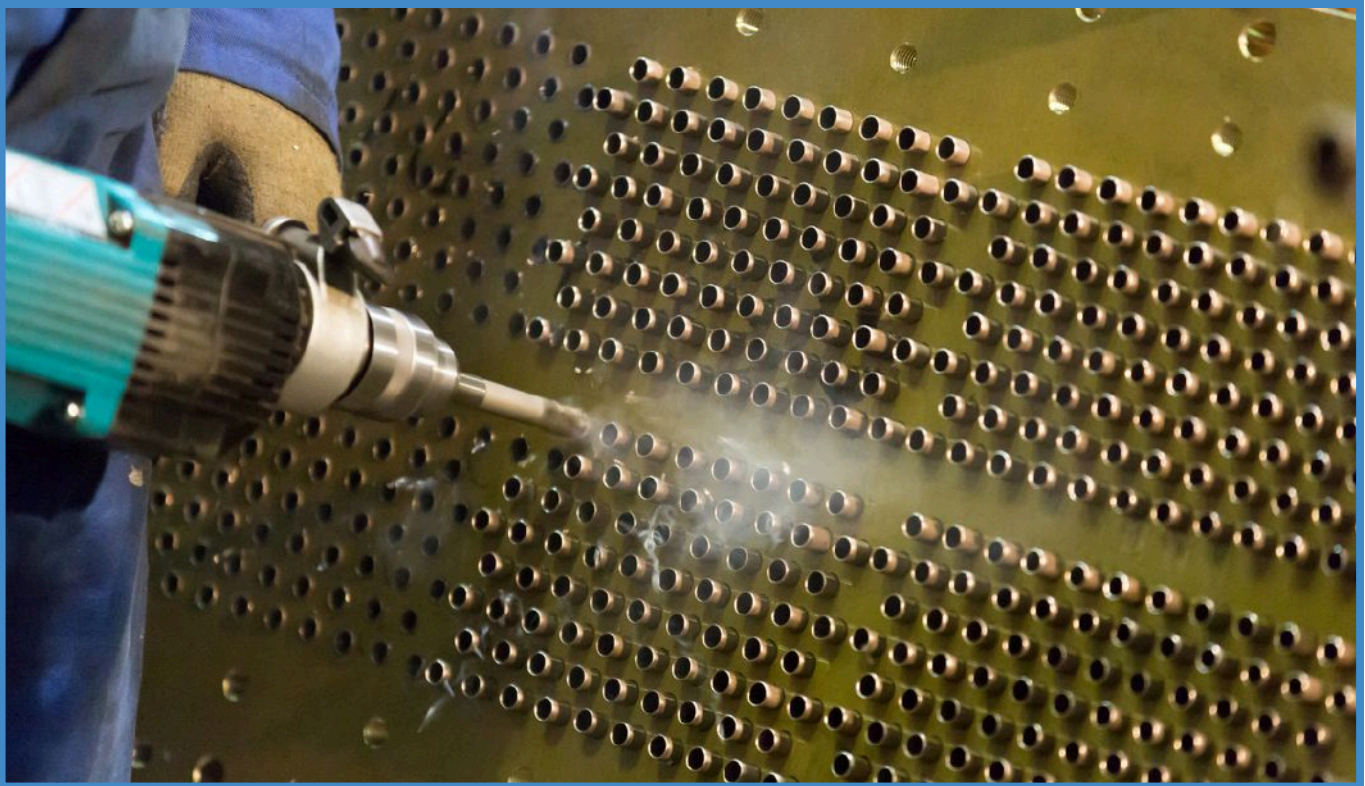

Supplying Worldwide Since 1987

Comprehensive Services to Meet Your Heat Exchange Needs

We don't just supply products; we offer end-to-end support, ensuring your heat exchange systems operate at peak performance. Our services include:

- Onboard Work: Worldwide on-site services, including re-tubing and refurbishment.
- Stock Holding: Quick replacement parts for common engine types to minimise downtime.
- Custom Engineering: Tailored designs for unique heat exchange needs.

Tailored Heat Exchanger Solutions for Every Industry

At **AMI Exchangers**, we understand that each industry has its unique needs. Our extensive product range includes:

- Charge Air Coolers for improving engine performance
- Shell & Tube Heat Exchangers for high heat transfer efficiency
- Plate Heat Exchangers ideal for space-saving and high efficiency
- Air Conditioning Coils for optimal system performance
- Radiators designed for industrial applications

We provide custom solutions, ensuring our products fit your specific requirements, whether you're in oil & gas, marine, power generation, or other industrial sectors.

Global Reach, Local Expertise

We support industries worldwide with quick response times and efficient solutions, keeping your operations running smoothly and reducing downtime.
